

Data acquisition software

ZLINK

Data Acquisition Software

[Application]

Storage and analysis of all measured data

[Feature]

- ZLINK is a Microsoft Excel™ spreadsheet designed for capturing (up to 10 data / second) and recording the measured data from Imada's digital force gauge DPZ series with RS-232C interface.
- Automatic graphing function
- An easy operation without nuisance settings
- Interface cable comes with the software as an accessory

[Main functions]

- Continuous data recording
- Individual data recording
- Complete control of the force gauge settings (Peak mode, Comparator function, Measuring unit, etc.)
- Automatic graphing function
- Memory access function
